336-1100 PHILLIPS AT THIRTEENTH SIOUX FALLS, SOUTH DAKOTA

August 6, 1963

Mr. Ernest J. Wesolowski
1416 Pasadena Avenue
Omaha 7, Nebraska

Dear Ernest:

This is a Verification of your Reception Report of KELO Radio on 1320 Kc. July 30, 1963 at 5:30 A.M. C.S.T.

At nite we operate with a Four-Tower Directional Array beamed to the northwest.

Daytime we use 5,000 watts into a 1,000-foot tower which is energized as a center fed full-wave sitting on a 200-foot insulator--strange, but true!!

Personal regards,

Les Froke

Les Froke,
Chief Engineer.
